

WE ARE ALL (CONNECTED)

If there's trash in the village, there's trash in the sea.

Our community expands far beyond Selong Belanak beach. However, with multiple villages near rivers, this means that all mismanaged waste eventually ends up in the ocean. That's why SBCA is creating sustainable systems and educational programs to eliminate plastic waste where it starts. **Join us.**

PLASTIC KILLS

It's a fact: Plastic waste harms all living creatures.

When we destroy our oceans, we destroy our community. That's why the Selong Belanak Community Association (SBCA) is creating sustainable waste management systems and educational programs to eliminate plastic waste where it starts. **Join us.**

OUR BEACH IS NOT A TRASH BIN

Ocean pollution must be stopped. We must make it happen.

Indonesia is ranked second in the world in terms of plastic waste. That's why the Selong Belanak Community Association (SBCA) is creating sustainable waste management systems and educational programs to eliminate plastic waste where it starts. **Join us.**
